PROPOSAL 1 - 2015 ELECTION OF DIRECTORS

The Corporation's Board of Directors is divided into three classes. Each year, on a rotating basis, the terms of office of the directors in one of the three classes expire. Directors are elected for a three year term. The directors whose terms expire at the annual meeting ("Class III Directors") are Frederick P. Dillingham, Donald L. Grill and Randy D. Hicks, M.D. The Board has nominated these same individuals for reelection as Class III Directors. If elected, the terms of these directors will expire at the 2018 annual meeting of shareholders.

Except for those individuals nominated by the Board of Directors, no persons may be nominated for election at the 2015 annual meeting. The Corporation's Bylaws require at least 120 days prior written notice of any other proposed shareholder nominations. No nominations were received from a shareholder prior to the required written notice date.

The proposed nominees are willing to be elected and to serve. In the event that any nominee is unable to serve or is otherwise unavailable for election, which is not now contemplated, the incumbent Board of Directors may or may not select a substitute nominee. If a substitute nominee is selected, all proxies will be voted for the person so selected. If a substitute nominee is not so selected, all proxies will be voted for the election of the remaining nominees. Proxies will not be voted for a greater number of persons than the number of nominees named.

A vote of shareholders holding a plurality of shares voting is required to elect directors. For the purpose of counting votes on this proposal, abstentions, broker nonvotes, and other shares not voted will not be counted as shares voted. Abstentions and broker non-votes are counted for the purpose of determining whether a quorum is present.

The Nomination Process

Director nominees are considered and must be recommended to the full Board by the Director Selection Committee. When considering a potential candidate for membership on the Corporation's Board, the Committee seeks to identify candidates who will meet the challenges and needs of the Board. The Committee considers, among other qualifications, demonstrated character and judgment, diversity, geographic representation, professional credentials, recognition in the marketplace, and experience in business and the financial industry. While the Committee considers diversity among the various qualifications, it has not adopted a formal diversity policy. In addition, the Committee has not established specific minimum age, education, and years of business experience or specific types of skills for potential candidates, but, in general, expects qualified candidates will have ample experience and a proven record of business success and leadership. In general, the Board requires that each of its members will have the highest personal and professional ethics, integrity and values; will consistently exercise sound and objective business judgment; and will have a comfort with diversity in its broadest sense. In addition, it is anticipated that the Board as a whole will have individuals with significant appropriate senior management and leadership experience, a comfort with technology, a long-term and strategic perspective, and the ability to advance constructive debate. It is considered important for the Board as a whole to operate in an atmosphere where the chemistry of the Board is collaborative and constructive in effectively representing the interests of the shareholders.

The Committee will consider shareholder nominations for directors submitted in accordance with the procedure set forth in Article III, Section 15(c) of the Corporation's Bylaws. The procedure provides that a notice relating to the nomination must be given in writing to the Corporation not later than 120 days prior to the annual meeting. Such notice must contain identification information, business experience and background information with respect to the proposed nominee and contain information with respect to the proposed nominee's share ownership. There are no differences in the manner in which the Committee evaluates a candidate that is recommended for nomination for membership on the Corporation's Board by

a shareholder. As noted, the Board has appropriately considered nominations from the Corporation's shareholders in connection with the annual meeting.

Upon receipt of information concerning a shareholder proposed candidate, the Committee assesses the Board's needs, primarily whether or not there is a current or pending vacancy or a possible need to fulfill by adding or replacing a director, and then develops a director profile by comparing the current state of Board characteristics with the desired state and the candidate's qualifications. The profile and the candidate's submitted information are provided to the Board for discussion. Similarly, if at any time the Committee determines there may be a need to add or replace a director, the Committee develops a director profile by comparing the current state of Board characteristics with the desired state. If no candidates are apparent from any source, the Committee will determine the appropriate method to conduct a search. The Committee has, to date, not paid any third party fee to assist in identifying and evaluating nominees.

With regard to the nominations of Frederick P. Dillingham, Donald L. Grill and Dr. Randy D. Hicks, M.D, as directors of the Corporation, each of the nominees was recommended by non-management directors.

Each director attended at least 75 percent of the total meetings of the Board of Directors and meetings of the committees on which he served. The Corporation also encourages all members of the Board to attend the Corporation's annual meeting of shareholders each year.

Separate Chairman and Chief Executive Position and Board's Oversight of Risk

Since the inception of the holding company in 1987, the Corporation has chosen to have independence between board leadership and the bank leadership. Accordingly, board leadership positions including the Chairmanship of the Board and Audit Committee have always been held by outside or non-management directors. The Chairman's position provides meaningful and appropriate oversight in fulfilling the fiduciary responsibilities of the board and representing the interests of the shareholders.

Responsibilities for managing the various types of risks inherent in the Corporation and the Banks are spread among the holding company and bank boards and committees, various members of management and management committees. As a separately chartered institution, The State Bank is authorized and empowered by Michigan and federal banking law and regulation to operate autonomously as a commercial bank. Through a disciplined structure of board delegated authority, individuals and committees are empowered to monitor and control operational risks, credit risks, interest rate risks, etc. Internal and external testing by outside consultants is utilized to determine compliance with risk control procedures. The Bank Board is heavily involved in monitoring reports, interacting with management, and communicating with external consultants. Summary reports are provided to the holding company board

for review and monitoring. Importantly, holding company directors also serve on the Bank Board which means that holding company directors are intimately aware of, and involved in, risk management at the bank and holding company levels.

At the holding company level, the Audit Committee reviews with management, the internal auditor and the independent auditor, the Corporation's financial risks, the Corporation's risk management process, any major issues as to the adequacy of the Corporation's internal controls and any special audit steps adopted in light of any material control deficiencies.
